

Bluetooth Connection Manual

1. Turn on the speakers and short press "MODE" to select into bluetooth mode. You will see "blue" blinking on the display screen.
2. Turn on the bluetooth function on the connection device, and search the bluetooth signal.
3. Choose the signal named "LRX-448", then click to connect.
4. Once the connection is successfully established, you will see "blue" no longer blinking. Now you can use the device player to enjoy the music.
5. Short press "MODE" into other modes or turn off the bluetooth function on your device to disconnect.

FCC Warning Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the use of authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- - Reorient or relocate the receiving antenna.
- - Increase the separation between the equipment and receiver.
- - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- - Consult the dealer or an experienced radio/TV technician for help.
